Dear Shareholder

iShares Green Bond Index Fund (IE)

(together, the "Funds")**

BlackRock offers one of the industry's most comprehensive sustainable product ranges, shaped by client demand and preferences, and we remain committed to evolving our platform to help clients achieve their sustainable and transition investment goals.

We are writing to inform you that we will be evolving the Funds to align with new guidelines from the European Securities and Markets Authority ("**ESMA**") on the use of ESG or sustainability-related terms in fund names.

In implementing the new guidelines (ahead of 21 May 2025 for existing funds), our approach has been shaped by three key principles:

- maintaining the rigour of our sustainable investment approach;
- seeking to ensure our products remain aligned with client preferences;
- and
- seeking to avoid any changes that could negatively impact client outcomes.

These guidelines will set specific requirements for funds that use terms like "Sustainability", "Environmental" and "Impact" in their names. For these funds, we will be typically required to apply EU Paris-aligned Benchmark ("**PAB**") exclusions (these broadly prohibit investments in companies involved in controversial weapons or tobacco; have violated UN Global Compact principles or OECD

Guidelines for Multinational Enterprises; or derive revenues above certain specified thresholds from coal, oil, gas or electricity generation).<sup>1</sup>

Similarly, for funds using terms like "Social", "Governance" and "Transition" in their names, we will be typically required to apply EU Climate Transition Benchmark ("CTB") exclusions (these broadly prohibit investments in companies involved in controversial weapons or tobacco; or have violated UN Global Compact principles or OECD Guidelines for Multinational Enterprises).

Additionally, any fund using ESG or sustainability-related terms will be required to ensure that at least 80% of its investments align with the environmental or social goals or sustainable investment objectives, as stated in the fund's regulatory disclosures.

Where the majority of clients have expressed that maintaining the fund's current investment process and client outcomes is their preference, we will be amending the fund name. To reflect this client feedback while adhering to the new guidelines, these funds will not maintain ESG or sustainability-related terms in the name, but they may retain a focus on Environmental, Social and/or Governance risks and opportunities within the fund's investment strategy. This will be clearly outlined in fund documentation.

The board of directors (together the "**Board**" or the "**Directors**") of the Company is therefore writing to notify you that the Funds will evolve to meet the new guidelines, effective from 1 April 2025.

Terms not defined herein shall have the same meaning as set out in the prospectus for the Company dated 28 February 2025 (the "**Prospectus**").

## **Prospectus Updates in light of the Guidelines**

<sup>1</sup> The Funds may gain indirect exposure for non-investment purposes (through, for example, derivatives and shares or units of collective investment schemes ("CIS")) to issuers with exposures that are inconsistent with the PAB exclusions described. Circumstances in which such indirect exposure may arise include where a counterparty to a derivative in which a Fund invests posts collateral which is inconsistent with the Fund's ESG criteria or where a CIS in which a Fund invests does not apply any or the same ESG criteria as the relevant Fund and so may provide exposure to securities which are inconsistent with the Fund's ESG criteria.
